VOLUME NINE.

STONY PLAIN. ALBERTA. THURSDAY, OCT. 11, 1928.

Whole Number 427

## Rifle Club's Big Shoot

The annual shoot of Stony Plain Rifle Club will take place on Friday, the 19th inst, when prizes amounting to \$300 will be competed for. Competitions for individual shooting will start at ten a.m., and team shooting immediately afterwards. All members are requested to be at the range on time.

The usual Smoker will take place the same evening. Admission \$1.

## United Church Notes.

Last Sunday evening was a special occasion in the Sunday school and church, the two combining in an annual rally service. The church was filled to capacity. Great credit

is due Mrs R M Oatway and Mrs L Kowensky who trained the children for the presentation of the programme. Miss Ruth Wight was the organist. A delegation from Bright Bank, including Miss Neven, was present. Miss E Oatway read a special address entitled "The Christ of the Andes."

Next Sunday Prof. Otwell, registrar of the University of Alberta, will be the special speaker at three points Spruce Grove at 11, Bright Bank at 3, Stony Plain 7.30. Special seating capacity has been arranged for. There will be a special male choir.

On Sunday Oct. 21 the pastor will give a special sermon on "Courage"

## The W. I. Conference.

One excellent feature of the conference of Stony Plain constituency of the W. I. held in the United church Thurs. Sep. 27th, was the large delegations from Duffield and Winterburn branches—9 members from Duffield and 11 from Winterburn being present. The local members made gracious hostesses, entertaining the visitors in their homes for dinner and serving refreshments at the close of the afternoon session.

Mrs R Faulks was official delegate from Duffield, and reported splendid work being done there.

Mrs F Wild, representing Winterburn institute, told of the many activities of that branch.

Mrs L Kowensky reported the Stony Plain institute's work, and this branch is very much alive.

Mrs F W Yeats, and Miss Lent (Duffield) gave some fine

vocal solos, being accompanied by Mrs R M Oatway.

Mrs A H Rogers, the district director, was the chief speaker of the conference. Her address on the history of the W.I. was thoroughly enjoyed. Mrs W J Taylor, Pres. of Duffield W.I. invited the conference to hold its next session at Duffield.

The old officers were all re-elected, as follows—Chairman child welfare and public health, Mrs Short, Woodhead

Chair education and better schools Mrs Taylor, Duffield

Chairman of legislation, Mrs Woodhead

Chairman household economies, Mrs Lord, Winterburn

Chairman Canadianisation and national events, Mrs Stewart

Chairman agriculture, Miss Gobeille

Chairman Canadian industries, Mrs R M Oatway

Constituency convener, Mrs R E Wood

## Railway Time Table.

Going east—Every morning at 5.43. Mon. Wed. Fri. morning at 6.55.

Going west—Every midnight at 24.24. Sun. Tues. Friday at 1.25 p.m.

## LOCAL NEWS.

Mr Chas Schultz, of Vancouver, is here at present, on a business trip. Charlie reports the family as being well, and that business on the Coast is good this season.

Miss Elizabeth Kulak, a nurse at Ba rhead hospital, is visiting at her home, Rosenthal district.

Miss Amy Foerster, Buford, was a visitor at her home here over the week end.

Alec Poelzer, who spent the summer in the Rockies, has returned to Stony.

Attention is drawn to the new railway schedule printed in another column.

Prof. Riedal of Concordia College preached the sermon at the Sunday morning service at St Matthew's Lutheran church (Missouri Synod). At the close of the regular service, the sacrament of the Lord's Supper was administered by the pastor, Rev E Eberhardt, assisted by Prof. Riedal.

Those who are acquainted with Mrs Dr. Crux, who in 1916 taught at the Bright Bank school, will be interested to learn that her son Norman has been accepted as a candidate for the ministry of the United Church.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M M Meeklenburg, eye specialist, 10159 101st St., Edmonton.

## One-Eyed Motor Cars.

A demonstration of what happens when two motor cars with one light only apiece meet, was given the other night on the road near Comet schoolhouse. Mr Henry Schneider was proceeding home in his Henry bus and met another car with only one light burning. Henry stopped his Henry, but the other car (a coupe from Bruderheim driven by Mr Lenz) came along at a good rate of speed and gave Henry's Henry an awful bump, indenting the radiator, sideswiping everything on the port side, and dislocating the percolator on the engine. When the mechanics viewed her they gave up all hope of recovery. Henry feels keenly the loss of his Henry car, as he's had her since 1913.

The Police was called, and on arriving on the scene gave each motorist a lecture.

## Calendar.

- October 11—Spruce Grove United Church Ladies Aid meet
- 12—Dance 'at Rosenthal School House
- 15—Chicken Supper and Concert at local United Church.
- 17—Apron Social and Concert at Winterburn Hall.
- 19—Rifle Club's Annual Shoot at Comet Butte
- 20—Warren Sale at Tomahawk.
- 24—District Court meets in Stony Plain.
- 26—Benedict Dance, Holborn Hall.

## The Progress of Canada

Canada is forging steadily, even rapidly, to the front among the nations of the world. In all things material it is making great growth. Its trade, both domestic and foreign, is expanding as never before, and as a result every branch of industry is active. The country has just harvested one of the largest crops in its history, mining discoveries and operations are proceeding on an unprecedented scale, factories are working overtime, building operations in all provinces are reaching totals hitherto unrecorded, with the result that employment is general, wages good, and population increasing.

Important and gratifying as this material growth and prevailing prosperity is to our people, a much more vital matter to Canada is whether the Dominion is likewise making progress in those other directions which are essential to the upbuilding of a nation in the true sense. Are the Canadian people becoming merely a nation of money-seekers, measuring their success in terms of dollars and statistics recording economic development and growth, or are they utilizing the larger advantages and increased power which material prosperity is conferring upon them to encourage and develop those arts and characteristics which stamp a people as truly advancing to greatness?

We believe signs generally point to the fact that the people of Canada are, taken as a whole, more deeply interested today in the spiritual, intellectual, moral growth of their country than at any previous period; that, in fact, they are deeply concerned, and very determined that the national ideals and character shall be maintained at a high level.

The widespread interest in and discussion of the subject of immigration is but one manifestation of this spirit. Considered solely from a material standpoint it would probably pay Canada to enormously increase its population just as rapidly as possible. Economically Canada would probably gain by absorption by the United States. But Canadians are insistent that quality rather than quantity shall be the governing factor in our immigration policy, and it would be hard to muster a corporal's guard of outstanding men who favor the policy of United States annexation.

Throughout Canada increasingly sympathetic attention is being given to the assimilation of the non-British peoples within our borders into the Canadian family. Here and there people may adopt an unfriendly and unfair attitude towards these people, and to that extent retard the good work, but they are exceptions to the generality of Canadians. More and more it is being realized that these people are making a real contribution to the national life of Canada, bringing to us music, poetry, traditions and handicrafts which are enriching this Dominion.

The increased attention being given to musical festivals and symphony orchestras, to the establishment of art galleries and museums, to scientific research, to literature and the rapidly increasing number of libraries, and to the steady improvement in Canadian magazines and publications of a better class, all go to prove that the people of Canada are not wholly materially minded.

The wonderful success which has attended the application of co-operative principles in the solution of production and marketing problems, and in the provision of public services for the use of all the people, is having its inevitable effect upon the minds of all people. To an ever increasing extent they are beginning to realize that if through loyal co-operation they can remedy material evils and advance their individual and corporate welfare, through the acceptance of the same principles and their application to all phases of community, provincial and national life they can greatly advance the welfare of the country as a whole.

Co-operation is better than competition or antagonism. Sympathetic consideration and helpful co-operation is better than hatred and the maintenance of bitter animosities. In the practical work of co-operation the Canadian people are learning that there are two sides to almost every question, that people who may differ with you are just as sincere as you are, that the road to ultimate success, and the greatest good to the greatest number lies along the path of friendly compromise rather than in continual enmity and warfare.

Canada's progress is, therefore, a well balanced progress, and because of this gratifying fact the people of the Dominion may look to the future with unbounded confidence to the future if their great country.

A torch has been devised that can cut steel in a sunken ship at any depth.

She—"I've been trying to think of a word for two weeks."  
He—"How about fortnight?"

Poverty is no disgrace. At least it is better than being a multi-millionaire with chronic indigestion.

Speaking of serious reading, how is this from the bank, "Your account is overdrawn."

## Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.  
Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. There you want to know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.  
Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions—any druggist.

## To Aid Farm Workers

Clearing House to Furnish Winter Farm Employment May be Established

While no definite decision has been reached yet, a central clearing house, from which British miner-harvesters will be furnished winter employment may be located in Regina. The establishment of such a bureau, though not necessarily in this city, is expected to be the outcome of a conference held at the Parliament Buildings, Regina, on September 12, attended by representatives of the Federal and Provincial Departments of Colonization, those of the two great railways, the Government Labor Service and the United Farmers of Canada, Saskatchewan section.

## RHEUMATIC MISERY

Relief Can Only Come Through Better Blood—Liniments

In no other disease does the blood become thin so rapidly as in rheumatism. Not only does it become thin but it is loaded with impurities—rheumatic poisons. Without the proper treatment these poisons increase, the inflamed joints swell and the patient becomes a cripple. Most treatments simply aim to keep down the pain, hence with every unfavorable condition a renewed attack follows.

To cast out rheumatism the blood must be enriched and the rheumatic poisons driven out with the natural secretions of the body. This can best be done through a course of Dr. Williams' Pink Pills, which have a specific action on the blood, giving it new richness and redness. Thousands have tried this treatment with beneficial results. That every sufferer from rheumatism who does not try Dr. Williams' Pink Pills is neglecting the most hopeful means of recovery is shown by the statement of Mr. David Carroll, Pictou, N. S., who says:—"For years I was troubled with rheumatism. The pains were not continuous, but they always returned, and kept getting worse. I tried so-called electric belts and many medicines, but did not get more than temporary relief. Only those who have suffered from this trouble will realize what I suffered at times. I had begun to despair of getting better when a friend urged me to try Dr. Williams' Pink Pills. In a short time I could feel the medicine helping me so I gladly continued taking the pills and soon found that every trace of the trouble had disappeared and there was a great improvement in my general health. It is now two years since I took Dr. Williams' Pink Pills and I have not had the least twinge of the trouble in that time. That is why I confidently recommend the pills to other sufferers."

You can get these Pills from any medicine dealer or by mail at 50c a box from Dr. Williams' Medicine Company, Brockville, Ont.

## Canadian Amateur Golf Championships

Will Be Held at Jasper Park Lodge Next Year From August 19 to 24

Authentic information was received at Jasper National Park by the visiting Senior Golfers from Great Britain that the United States National Amateur golf tournament will be held next year over Pebbles Beach, Calif., from September 2 to 7. With these dates now definitely assured it is also possible to state positively that the Canadian Amateur championships will be held over the Jasper Park Lodge golf course next year from August 19 to 24. The defining of these two important dates in the golfing program for 1929 leaves an interval of a full week between the Canadian and U. S. Amateur events and it is more than likely, therefore, that the Canadian championships will attract a large number from the gallery of stars in the United States and other countries who will be westward bound for the U. S. event. Should these hopes be fulfilled, and every effort is to be made by the Royal Canadian Golf Association and the Canadian National Railways to bring them to fruition, the 1929 Canadian Amateur championship will be the greatest event in the history of golf in Canada.

If a huge cistern, large enough to cover Trafalgar Square and as high as Nelson's Column, were built as a water-tank, London would empty it twice daily.

We have often wondered, in our innocent way, whether the inventor of the telephone booth also designed the breakfast nook.

Minard's Liniment for sprains.

## How French Police Work

Use Soundless Whistles to Give Alarm to Headquarters

Policemen in most of the large French towns can summon help without being heard. They are supplied with whistles whose notes are far too high-pitched for the human ear to detect. These inaudible sound waves are picked up by microphones skillfully camouflaged throughout the city, and an alarm is flashed to central police headquarters.

A policeman who sees a burglar at work can summon reinforcements without alarming the suspect. He can, too, direct the sending of aid in Morse code by using the soundless whistle.

Tombstone Dealer (after several futile suggestions): How would just a simple "Gone Home" do for an inscription?

The Widow: I guess that will be all right. It was always the last place he ever thought of going.

What would really have settled the whole thing is for Mr. Kellogg to have written into his peace pact that no nation engaged in war could borrow money of the United States.

## Headaches

For a headache, however painful, inhale a little Minard's and baste forehead. Speedy relief.

The House of Lords, England, may transact certain business when there are only three members present, not necessarily including the Lord Chancellor.

**Demand**

**BAYER**

**ASPIRIN**

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it's not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

**Physicians prescribe Aspirin; it does NOT affect the heart**

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer Manufacture, to ensure the public against imitation, the Tablets will be stamped with their "Bayer Cross" trademark.

## Reward and Garnet, New Wheat Varieties, Now Holding Attention of Western Growers

Mr. L. H. Newman, Dominion Cerealist of the Experimental Farm, returned to the East recently from an extensive tour of Western Canada. During the trip practically every wheat growing area was visited. Mr. Newman states that the newer wheats, Reward and Garnet, are holding the attention of the western growers.

Some 467 farmers are this year testing Reward wheat. The variety is reported to have done well, though actual figures on yield, etc., have not yet been compiled. Mr. Newman stated that it had been impossible to determine anything definite with regard to this variety's rust resisting qualities because there was practically no rust in Manitoba and very little elsewhere. Conditions generally in the west, Mr. Newman describes as distinctly above the average.

Particularly good are the reports on Garnet wheat, one of the originations of the Experimental Farm. Writing on the subject of this remarkable wheat early this year, the Dominion Cerealist stated "the history of Garnet wheat is almost an epic in the realm of scientific achievement. It reveals a story of almost half a century of patient but determined effort, replete with discouragements and disappointments but rewarded ultimately by definite and indisputable gains."

In 1914 Garnet wheat was included in the regular variety test-plots at the Experimental Farm. In 1915 it was tested at the Experimental Farms in the Prairie Provinces. In 1925 the branch farms were able to sow 320 acres, from which was produced about 9,700 bushels.

In 1926, some 6,554 bushels of Garnet seed were offered to prairie farmers, with a four-bushel limit. Some 2,828 farmers, including 862 soldier settlers, secured two to four bushels lots and this, together with seed from increasing test samples by two or three seed growers, made a grand total of some 14,000 bushels, or enough to seed 12,000 acres.

This year Garnet wheat was observed growing in all parts of the west. The section east of Prince Albert and north of Tisdale is practically a Garnet country. It is an early maturing variety, and produces a high proportion of grain to straw. This season serious frost in Saskatchewan on August 22 damaged the immature wheat, but Garnet demonstrated its ability to mature before the frost. It usually ripens a day or two before Ruby, from six to twelve days ahead of Marquis, and three or four days before Reward. This variety has also behaved well under drought conditions.

In 1903 it was reported wheat would never grow in the Peace River country. This year Garnet was being cut here on August 21. Crops were more advanced in the Peace River district than further south, and some of the west's finest crops were seen there. Dr. J. H. Gladale, Deputy Minister of Agriculture, and Mr. L. H. Newman, driving through the Rio Grande section of the Peace River on August 22, were able to identify 31 varieties of wheat, and of these 16 were Garnet, 7 Marquis, 5 Huron, 1 Turkey Red, 1 Ruby and 1 Reward. This indicates the way in which Garnet wheat is spreading in the west. As an early maturer and good yielder, it has no equal, and once more the Experimental Farm Branch of the Dominion Department of Agriculture must be credited with an epoch-making contribution to Canadian agriculture.

### Not Allowed to Forget

A fellow who does not often go to the races attended a meeting one day and had his wallet stolen. This fact he was unhelpfully forced to report to his wife. The story of his misfortune got around and one day a business acquaintance said to him: "Have you heard anything about your wallet?" "Yes," replied the owner victoriously, "I have, morning-noon-and-night!"

Wash, the mouthpiece of the telephone, frequently to keep it in sanitary condition.

W. N. U. 1764

### Fort Churchill Harbor

Expropriation Proceedings Under Way to Secure Property

Preliminary arrangements for expropriation proceedings in regard to property at Fort Churchill are under way in Ottawa. Judge H. A. Robson, of Winnipeg, is acting for the Dominion government and the private owners are the descendants of William Beach, well known Winnipeg old-timer who was so ardent a believer in the Fort Churchill terminus to the Hudson Bay Railroad that he bought a large tract of territory at this point many years ago.

The Beach estate owns the narrow strip of land running between the harbor and the sea and it is along the inner shore of this peninsula that the harbor works are being constructed.

Hon. Chas. Dunning decided last year, when Churchill was selected as the port, that no private interests should be allowed to own land there at present, and expropriation proceedings accordingly were begun.

### Winnipeg Newspaper Union

Looking Slender

An unusual one-piece dress, cleverly designed to make its wearer appear more slender, with panel front perforated to be cut apart to use contrasting fabrics or colors, an illustrated, narrow belt, attached at either side of front panel, holds in fullness through the waistline and ties in youthful bow at back. The shaped collar is smart, finishing the flatter square neckline. Style No. 224 is designed in sizes 36, 38, 40, 44, 46 and 48 inches bust, and if made of one material, only takes 3 1/2 yards of 40-inch. Printed and plain silk crepe, crepe satin using the two surfaces, printed and plain shantung, printed and plain linen, two tones in flat silk crepe, jersey, sheer wools or canton-faille crepe are usually pleasing combinations. Pattern price 25 cents in stamps or coin (coin preferred.)

We suggest enclosing 10 cents additional for a copy of our Fashion Magazine.

### WEDDING OF SOCIAL PROMINENCE

Hon. Robert Forke, minister of immigration, has just announced the marriage of his daughter, Ethel May, to Charles J. McFarland, formerly of Los Angeles and now of Vancouver, the marriage having taken place in Vancouver recently.

### Wrong Impression of Canada

English Paper Gives Weird Account of Primitive Conditions

The woman's page editor of the Vancouver Province says: "There isn't a Canadian who at some time or other doesn't bemoan the fact that Canada is regarded as the 'Land of Beyond' by English people. Nearly every person has some amusing story to tell of an Englishman who came to Vancouver looking for bears, or Indians, or who showed surprise at the discovery that this country is in no way different from any other as far as conveniences are concerned."

"It is somewhat surprising to pick up a well-known English daily and see in staring headline, 'A Bridge Party in West Vancouver; How an English Hostess Makes the Best of Her Primitive Home in the Wilds.' And there follows a long account of a trip to the wilds of West Vancouver to a harmless bridge party where the guests regaled themselves on sandwiches, seated on packing boxes or beds."

"No one would argue about the truth of the affair. It may be so, but why a resident of British Columbia should undertake to send items to England stressing the primitive state of this part of Canada is not understandable. So, perhaps, our education needs, to start at home, before we try to impress our importance on other countries."

The Chemin de Fer du Nord has always held first place among French railroads for speed.

### THE FIRST MOOSE TROPHY

Bringing out with them the first moose shot in opening of the 1928 hunting season, Oscar Hoch, of Miami, treed from La Tuque, Que., at careful hunt in the Vermillion flocks Armand Tremblay. The Hoch had an antler spread of from being the largest secured did trophy and was shot in the which the hunting opened.

## Shows How British Columbia Was Retained For Canada By Work of Early Pioneers

### Wintering Bees Outside

Tells How Bees Are Successfully Wintered Out-of-Doors

At the Central Experimental Farm at Ottawa a large number of colonies of bees are successfully wintered out-of-doors each year. In his report for 1927, the Dominion Apiarist tells how the bees are protected and fed. The cases used are four-colony and two-colony and single cases are also used. In packing, planer shavings are used of which three inches is placed under the hives, four or five inches above their sides, and six inches to eight inches on the top. Thirty-eight colonies were wintered on honey and forty-four on sugar syrup. Of those wintered on honey, thirty received shallow, food chambers, and eight received deep ones. The bees were able to fly up until November 8 and after February 24. Towards the end of April when the colonies were examined it was found that those wintered on honey were in worse shape than those of the sugar syrup fed group. Eight of the colonies died, of which six received honey and two received syrup. By the tenth of May it was found that in all the live colonies the number of frames covered by the bees averaged 8.5 per colony.

### Britishers Who Stick

Ninety-Five Per Cent of Residents From Britain Have Made Good

Notwithstanding the concentrated efforts of a well-organized even though blatant coterie of Communists, ten thousand British miners came to the prairies, and an unexpectedly high percentage of them are remaining to meet the challenge that is Canada's. That challenge of this great Dominion is one that offers to the winner the best there is in life, exemplified by the fact that an immigrant of two decades ago is a senior member of the federal cabinet.

Less than five per cent of the ten thousand miners have gone back, among these are some physically unfit, others mentally disqualified. Some came with the purpose of making the trip a vacation junket, many others came with Communist instruction to foment trouble — and, yet 95 per cent remain.

It's an outstanding defeat for the powers of communism who sought to bring discredit upon both the British workers and upon the Canada that harbors all too many of their type with much too tolerant kindness. —Canadian Finance.

Had it not been for Sir George Simpson, governor of the Hudson's Bay Company, whose historic visit to the Pacific coast a hundred years ago was celebrated recently the province of British Columbia would be in the possession of the United States, and Canada would have no outlet to the Pacific Ocean.

Perhaps this statement, made by Mr. Charles Vincent Sale, president of the Company of Adventurers, did more than anything else to impress on the minds of those gathered at Fort St. James, B.C., for the centenary of the importance of the exploits of the man who has been called the Cecil Rhodes of Canada. The romance of a century ago was brought vividly before their eyes in a pageant which resurrected Simpson's journeying across the wide stretches that ultimately became the Dominion, but after all, the living picture of the governor and his retinue arriving at the fort could not even indicate the far-reaching effect Simpson's activities were to have in the history of North America.

"Fort St. James in those days," said Governor Sale, "was the outpost of an empire; the visible sign of British occupation; a centre of government." He went on to tell of the claims of Spain to all the coast south of the Russian possessions, of Spain's waiving her claims in favor of the United States.

"Our American neighbors," he said, "were disposed to believe that the title was clear to all the south of the Russian possessions. And so it might have been but for the fur trade and for such men as Alexander MacKenzie, Simon Fraser, John Stuart and Sir George Simpson."

"It was in the struggle between the Northwest Company and the American interest for the country west of the Rocky Mountains that Simon Fraser founded Fort St. James in 1806. The Astorians came and vanished and in 1821 the United States proclaimed her right to the Pacific Coast and Sir George Simpson became the Hudson's Bay Company governor. Three years later, Simpson, to put the affairs of the Columbia district in shape and save the coast from the United States and Russia, crossed the country from York Factory, making the journey in 84 days, 20 days less than any previous record, and established the company's headquarters in such a way as to mark the limits of what he thought should be British territory on the north and south."

### Planning Western Air Mail

Ottawa, Ont.—Western Canada is practically assured of an air mail service next year. The officials of the Post Office department are putting the finishing touches to their policy which will be recommended to Hon. Peter Veniot, Postmaster-General, and probably by him to the cabinet and parliament.

Editor—It seems to me that some of your verses are not original. Do you ever borrow?

Poet—Well, sometimes. Could you let me have \$5?

"Jack, does your wife drive a car all over now?"

"You guessed it, Bill, sidewalks and all."

"If a man wants me for a wife he must be an athlete and be able to run as fast as Nurnul!"

"If a woman wants me for a husband she will have to be able to run faster than Nurnul!"—Lustige Blätter, Berlin.

what was probably the first moose shot in opening of the 1928 hunting season, Mr. and Mrs. Hoch reached Montreal the conclusion of a river section with out-moose secured by Mr. 47 inches and while far in the preserve, was a splendid morning of the day on —C.N.R. photo.

## WORLD HAPPENINGS BRIEFLY TOLD

One of the finest old churches in Moscow, the "Stranney Monastery," is being converted into an Anti-Religious museum.

Leon Vanderstuyft, Belgian bicyclist, broke the world motorcycle record for sustained speed when he rode 761.4 miles in one hour.

A report is current in Bucharest that Poland, Rumania and Greece have concluded a military agreement to make a common front against Russia in the event of war.

Thousands of cattle have been drowned in the flood that came after the bursting of the Yser dykes in Belgium and farmers estimate their damage at about \$25,000,000.

The Canadian Press was reliably informed that there is no reason to believe that the Duke and Duchess of York contemplate an early visit to Canada, as rumored in Ottawa.

T. Nichols, of the Royal Canadian Mounted Police, Lethbridge, Alta., will receive the Imperial Service medal awarded by His Majesty the King, according to the Canadian Gazette.

Great Britain and the U. S. have continued for another year their agreement on administrative co-operation for the prevention of smuggling liquor into the United States by ships flying the British flag.

It was reported in League of Nations circles that the Irish Free State, following the example of Canada, is planning to establish a legation in Paris and appoint a minister to France.

The appointment of Jean Knight as French minister to Canada has been announced officially, confirming previous intimations that M. Knight would be sent to Ottawa as France's first diplomatic representative in the Dominion.

Twenty years ago half of the population of 200,000,000 women and girls in China had crippled feet, but today almost every village has a woman's shoe store which displays an attractive array of footwear.

The ease with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

If they came from a monkey there's nothing you can do about it, but if you are going to the dogs you can detour.

**Goto Europe this Christmas**

Make it your happiest holiday. Your friends and relatives will be happy too. White Star ships offer a most enjoyable trip both ways.

## Protect Submarine Crews

Italian Has Invention That May Prove of Great Value

Cesar. Borghetti, inventor of an apparatus for saving the lives of submarine crews in case of danger, has succeeded in interesting the Italian government in his invention and now gives the press some details of his amazing invention.

Signor Borghetti's apparatus consists of several hollow cylinders attached to the sides of the submarine in such a way that they do not impede its passage through the water. The number of these cylinders depends on the number of men in the crew.

The outer chambers are reached by two doors from the interior of the vessel. Inside of each of these cylinders is another airtight chamber with four compartments holding compressed air.

When the shipwrecked crew is inside the inner chamber and the doors are tightened, a lever releases it from the outer cylinder which is firmly attached to the sides of the submarine. The cylinder containing the men is constructed in such a manner that it will float, automatically, to the surface even from a depth of 600 feet.

## DIARRHCEA Was So Bad Child Passed Blood

Mrs. Harry Nesbitt, R. R. No. 2, Shannon, N.B., writes: "Last Fall my little boy took very bad with diarrhea and before I knew it he was passing blood. I went to our medicine case and gave him a dose of

and a little later gave him another, and half an hour after the second dose he got relief and by the time he had taken six doses he was like a different child."

This wonderful bowel complaint remedy has been on the market for over 80 years; put up only by The T. Millers Co., Limited, Toronto, Ont.

Mrs. Littlefield - Tilly, you've left my lingerie scattered all around this room and I'm expecting company any minute.

Tilly, the Maid - That's all right, ma'am, I'll keep my eye 'em and see they don't pinch nothin'.

Good-bye Asthma. Persons suffering from that extremely trying trouble known as asthma know what it is to long with all their hearts for escape as from a tyrant. Never do they know when an attack may come and they know that to struggle unaided is vain. With Dr. J. D. Kellogg's Asthma Remedy at hand, however, they can say good-bye to their enemy and enjoy life again. It helps at once.

Kritik - Do you think you've improved "Richard III" much by rewriting it?

Playmirth - Sure. It was way out of date, for instance, where Richard hollers, "A horse! A horse! My kingdom for a horse!" I have him shout, "A plane! A plane! My dictatorship for a plane!"

The Poor Man's Friend - Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

Woodpeckers and literary critics make their living by picking holes in things.

Headache? Believe with Minard's Headache.

## Fine Shipment of Herefords

Range Cattle From Alberta Bring Large Sum in Chicago

Ninety-three head of dry cows from the McIntyre ranch in Alberta were recently consigned to Chicago in exchange for a \$10,000 cheque. Cattlemen looking over the shipment claim that it is one of the finest lots of range cattle ever forwarded from Calgary. The heaviest animal in the lot tipped the scales at 1,700 pounds and the ninety-three averaged 1,350 lbs. These cattle come from one of the few remaining old-time ranches which is running a herd of upward of 5,000 Herefords.

## Any Woman Can Look Stylish

MAE MARTIN

Most stylish looking women know a simple way to make last season's styles conform to this season's styles. Thousands have learned how easily they can transform old dress or a blouse, or coat, by the quick magic of home tinting or dyeing. With true, fast, Diamond Dyes, anyone can do this successfully. The "know-how" is in the dyes. Diamond Dyes don't streak or spot like inferior dyes. New, fashionable tints appeal like magic over the out-of-style or faded colors. Tinting with Diamond Dyes is easy as bluing, and dyeing takes just a little more time. Only Diamond Dyes produce perfect results. They have been perfected by over 50 years experience. Insist on them and save disappointment.

"Color Craft" my big new book of dollar-saving hints, will be sent you FREE. Write Mae Martin, Diamond Dyes, Windsor, Ontario.

## Many Planes in Pageant

Thousands of People Attended Air Mail Service Inauguration

The first aerial mail service between Canada and the United States was inaugurated October 1 at St. Hubert aerodrome, near Montreal, where a great aerial pageant, in which fifty planes took part, commenced at 9 o'clock in the presence of thousands of spectators. Planes of every size, even every color, Moths, Reid Ramblers, Swallows, Cabin-toppers, Vickers-Pairchild, Stinson-Detroit, Avro Avian, as flown by slinkers from England to Australia, Leaning Amphibian, Pitcairn Mailwing, tri-motor Ford, and the most interesting of all, three Siachen fighters, participated in the "evolutions." The "Siachen" were sent by the Royal Canadian Air Force, and are reputed to be the most deadly warping machines in existence.

Wife (reading the paper) - "It says here that the London man boasts he has had an umbrella for 20 years." Her Husband - "That's long enough. He ought to return it."

The Oil for the Farmer - A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

China's new warship is called "Peace." Hereafter it will be conceded that the Chinese understand a joke.

## CUTICURA HEALS SKIN TROUBLE

Sore Eruptions Broke Out Over Face, Itched and Burned.

"My trouble began with little, some eruptions which broke out all over my face. They itched and burned so that I always wanted to be scratching and when I scratched they got larger and then dried up. Some nights I could not sleep very well."

"I tried other remedies but they did not help me. I was troubled over five weeks when I began using Cuticura Soap and Ointment, and in a few days I was healed." (Signed) George W. Herchuk, Box 55, Chipman, Alta., Oct. 8, 1927.

Daily use of Cuticura Soap, with touches of Cuticura Ointment as required, keeps the skin fresh, smooth and clear. Cuticura Talcum is an ideal toilet powder.

## SUNDAY SCHOOL LESSON

OCTOBER 14

SPIRITUAL GIFTS

Golden Text: "Now abideth faith, hope, love, these three; and the greatest of these is love." - I Corinthians 13:13.

Lesson: 1 Corinthians 12-14.

Devotional Reading: I John 4:7-16.

Explanations and Comments  
 Spiritual Gifts are Diverse, but the Spirit is the Same, 12:4-7. - There was rivalry among the Corinthians as to which of them possessed the greatest gift for God's service. The tendency at Corinth was to estimate spiritual gifts by their showy rather than their solid character. "The reverse was Paul's way."

"The things we consider most remarkable may, after all, be least important. An ecstasy is pleasant, but strength to endure with fidelity is the significant touchstone and test of our Christianity is our avowal of Jesus Christ. If in our souls we own him Lord, we are possessed of the Spirit of Life." (John Gardner.)

There are different gifts, Paul wrote the Corinthians, but the same Spirit reveals himself in them; all there are different ways of ministrations, but back of them all is the same Lord; there are different sorts of activities, but they are all wrought by the Spirit. To each one is given his manifestation of the Spirit for the good of others.

Then in verses seven to eleven Paul mentions various spiritual gifts and repeats that different as they are, they are alike in source, the Spirit apportioning them as he wills. Paul does not disparage spiritual gifts; he realizes their value, but he realizes also the need of unity and co-operation in the church, and this he enforces in verses 12-30, by his figure of the body and its members; as all of the members are different, but essential to the body, so it is with the church and its members.

For years Mother Graves' Worm Exterminator has ranked as a reliable worm preparation and it always maintains its reputation.

## Teeth and Health

Issued by The Canadian Dental Hygiene Council and Published by The Canadian Dental Society

### TOOTH TURNS BLACK

Your white, healthy teeth have perhaps excited the admiration of your friends and your pride in them is fairly pardonable.

But one day a tooth that you had been intending to have "fixed" ceased to bother you until by and by you noted with some little alarm that this tooth was quite dark in contrast to its fellows.

Or, perhaps, your dentist because of your neglect found it necessary to remove the pulp from a tooth, following which operation you found with some dismay that it had changed color, and noticeably so.

Now, what has caused it?

Contrary to your idea, possibly, a tooth gets its shade, not from the outer enamel covering, which is almost colorless, but from the array of colors in the underlying body of dentin.

As a sequence to pulp death and decomposition, we have a disintegration of the blood elements with the production of pigments or color compounds. These permeate the dentinal structure through its many little tubuli and are reflected through the almost transparent enamel, giving the tooth its shade; this is the principal source of discoloration.

A less frequent cause is from the use of remedial agents employed in tooth treatments, many of which have the property of staining the dentine substance.

Now, unfortunately, as you can see, all of the scouring that you may do is of no avail - like the historic spot of "Methu" - it will not "out."

However, your dentist by employing bleaching agents within the tooth cavity can with fair success restore the shade, if the discoloration has not remained too long.

## TO INVESTIGATE MARKETING OF CANADIAN WHEAT

Winnipeg.—Conditions surrounding the marketing of the wheat crop are the main concern at present of W. R. Motherwell, federal minister of agriculture, who was here in connection with departmental business.

Immediately following his arrival in the city, Mr. Motherwell went with the Board of Grain Commissioners to the Grain Exchange for a meeting with the inspection staff. He spent a day at Fort William inspecting the handling of grain there. The minister indicated that investigation into some conditions pertaining to the marketing of Canadian wheat was in progress, partly as a result of complaints which he had heard in the British Isles during his recent trip in connection with the marketing of last year's crop.

In his investigations abroad, Mr. Motherwell was guided by the relation of Canadian production and trade to that of the countries he visited, keeping a sharp lookout for methods which might be applicable in Canada, and opportunities for marketing of Canadian products. He found in the British Isles a strong sentiment for empire products, but as far as Canada was concerned, on proven quality. He intimated that Canada could import four or five times as much dairy produce by doubling her production, and exporting the surplus over consumption.

While in Winnipeg, Mr. Motherwell plans to visit the Rust Research Laboratory at the Agricultural College, and he will consult the members of his staff in the various branches of the department here.

### Arrest Train Bandit

Robber Of Ontario Mail Car Offered No Resistance

Windsor.—Three hours after a mail car had been rifled of Canadian currency estimated at about \$40,000, John Gibbs, 20, said to come from Los Angeles, Cal., was arrested by the local police on the Detroit River ferry and landed in the goal here. According to authorities here he has admitted his guilt. When taken into custody he was carrying two pistols but offered no resistance to the officers.

The robbery was a most daring one the lone bandit holding the mail clerks helpless at the point of a revolver while he calmly looted the car.

### Zeppelin Makes First Trip

Faid Friendly Visit To England and Returned To Berlin

Berlin.—After paying a friendly visit to England, the new German dirigible Graf Zeppelin returned to Berlin. As the huge airship soared over the city in the bright sunshine thousands flocked to the streets and saw it describe a graceful loop over Wilhelmstrasse. Flowers for President von Hindenburg, attached to a small parachute, were released as the airship passed over Executive Palace, but they were carried six blocks beyond the building.

### Find Victim Of Plane Crash

Port Angeles, Washington.—The body of Dr. E. Holden, of Victoria, B.C., one of the seven victims of the ill-fated Victoria-Seattle plane which disappeared while en route to Seattle August 25, was found in Port Angeles harbor. The body was headless and badly broken. It was the fourth body of the seven in the plane to be found. The plane itself has never been located.

### To Open Office In Peru

Ottawa.—G. R. Stevens, Canadian Trade Commissioner in South Africa, has arrived in Canada en route to Peru, where he will open a new office with jurisdiction over Peru, Bolivia and Ecuador. Prior to his departure for South America, Mr. Stevens will visit manufacturing centres of Canada in connection with Canadian exports to his former territory.

W. N. U. 1754

## Fire Takes Four Lives

When Farm House Near Brandon Was Completely Destroyed

Brandon, Man.—Four persons were burned to death when the farm house of Alex Wilson, near Moore Park, Man., was destroyed by fire.

The dead: Mr. and Mrs. Alex Wilson, Mervin Wilson, their son, and Miss Sarah Wilson, Mr. Wilson's sister.

The fire was discovered by I. M. Harrison, a neighbor, when he was awakened by the reflection of the flames upon his windows. He put on his clothing and rushed out to discover that the Wilson house was on fire. The blaze was too far advanced at the time to permit rescue work.

W. E. Mann, general storekeeper at Moore Park, father of Mrs. Wilson, was also quickly on the scene, but the heat was so intense that he could not get near the building.

All of the bodies were recovered. The cause of the fire is a mystery. The barn, garage and other buildings on the farm were unharmed.

## Exhibit For Royal Winter Fair

Saskatchewan Will Send Fifty Of Its Best Horses

Regina.—Fifty horses, the pick of the Clydesdales, Percherons and Belgians in the province, will represent Saskatchewan at the Royal Fair, Toronto, in November, it was decided at a meeting of the livestock board held recently.

While many selections have yet to be made, both in horses and other classes, the board has definitely decided that the following will exhibit: Clydesdales.—The Experimental Farm at Indian Head, the University of Saskatchewan, John Falconer, Govan, and Mrs. W. H. Bryce, Donne Lodge, Arcola.

Percherons.—C. M. Rear, Regina, Robert Weir, Weldon, George Doan and Sons, Stony Beach.

Belgians.—C. M. Rear, Regina; Robert Thomas, Grandora, Andrew Nolan, Rouleau.

In the horse exhibits from this province there will be 20 Clydesdales, 15 Belgians and 15 Percherons. Many other exhibitors are yet to be named.

## Odd Accident To Airplane

Making Forced Landing Was Carried Out Over Lake

Ottawa.—An unusual forced landing at Black Lake, Que., in which the pilot and four passengers escaped uninjured, has been reported to the air board by the Canadian Transcontinental Airways.

Engine trouble forced down a plane piloted by J. Vachon. An effort was made to land on the ground but the momentum carried the machine out on the water. A serious accident was only avoided because it was of amphibian type it was stated. The left wings of the air craft were slightly damaged.

### Farmers To Hold Meeting

Saskatoon, Sask.—Some 400 farmers who specialize in the breeding of horses, cattle, sheep and swine will gather in Saskatoon on January 22, 23 and 24, when the Saskatchewan Livestock Association, with all its sections, meets in annual convention. Sessions will be held in the King George Hotel here, and there will be numerous meetings on the different aspects of stock farming in the province.

### Premier King Returning

Ottawa.—Premier Mackenzie King will sail for Canada on or about the 19th of this month, according to word received here. He will probably be accompanied on his return journey by Hon. C. A. Dunning, minister of railways; and Hon. Raoul Dandaneau, government leader in the senate.

### Finds Lost Scout

Windsor, N.S.—Col. Collins, South African delegate to the Empire Parliamentary Association, discovered W. Muncey, missing Canadian scout of the Boer War, whom Collins has been seeking all over Canada, resides at 1236 27th Avenue, Vancouver.

### Eliminate Level Crossings

Toronto.—With the object of eliminating every level crossing in Ontario the provincial department of highways is having an official report made on every point where a railway line crosses one of its highways.

## POLICY IS CRITICIZED

Lord Cushenden, whose foreign policy on behalf of Great Britain is denounced by Lloyd George as "one of barefacedly subserviences to France."

## Opposes Renewals Of Entente

Ramsay MacDonald Thinks Alliance With France Is Unwise

London, Eng.—At the recent Labor conference, Ramsay MacDonald made an important speech saying, "We must orient our diplomatic policy anew. I say that, without umbrage to France, it is not good for France or for us that we should re-establish any sort of alliance."

France is bound to take notice of this declaration on British policy from the leader of the opposition. The country has not yet any clear knowledge as to whether the present government is re-establishing the alliance with France, but unpublished agreements as to armaments on land seem to imply a new entente.

Ramsay MacDonald proposes to drag a declaration from the government when parliament meets next month. There are reports that the French government will immediately publish all correspondence on the naval side of the agreement. The understanding as to land forces is said to have been expressed only verbally.

## Adheres To Peace Pact

Soviets Deposit Note With State Department At Washington

Washington, D.C.—Soviet Russia has joined the other Nations adhering to the Kellogg-Briand treaty for renunciation of war. A document formally signifying Russia's adherence has been deposited with the State department by the French embassy, acting on behalf of the Moscow government, the United Press learned.

State department officials declined to discuss to the content of the document, but said it was placed with the original copy of the treaty. Officials intimated it would not be made public.

### No Demonstrations Allowed

Jerusalem.—The district commissioner of Jerusalem has refused to permit the orthodox Agudath Israel to hold a festival procession on the occasion of Succoth and has also banned a Moslem religious demonstration. It was stated that the government would prohibit any religious manifestation in Palestine.

## A VERY GRIM TALE

Once upon a time there were three bears. Along came the Trans-Canada and then there were three. The moral to this little story is—do not trespass on the railway tracks. Mother Bear is seen giving her sons an airing at Lake Louise. (C.P.R. photo.)

## Turned Adrift In Leaky Boat

Quebec Liquor Commission Inspector Threatened With Death By Captors

Montreal.—Joseph A. Patry, Quebec liquor commission inspector, was kidnapped by bootleggers at Riviere Du Loup. He managed to reach shore by paddling his craft with an old piece of wood.

Patry was instructed to probe suspected illegal transportation of liquor by boat to New Brunswick, and, with two companions set out for a large gasoline yacht which was anchored a short distance from the Riviere Du Loup wharf. The inspector managed to scramble aboard, but before his assistants could mount the boat, the yacht's engines were started and the yacht set out for the middle of the river. Patry tried to draw his revolver, but his arms were seized from behind and he was warned he raised an outcry he would be killed, and his body thrown overboard.

Later on the officer was lowered into a leaky rowboat and left to his fate. The matter has been reported to the authorities.

## General Allenby In New York

British Hero Honored By Official Salute Of 17 Guns

New York.—Field Marshal Sir Edmund H. H. Allenby, so-called last crusader, who conquered the Turks in Palestine and Egypt for the British, was welcomed on his arrival here for the American Legion Convention to be held soon in San Antonio.

Arriving on the liner Majestic with Lady Allenby, General Allenby received an official salute of 17 guns from the army reservation on Governor Island as the city's reception boat Macom carried him from the liner to the battery at the Southern tip of Manhattan Island.

The British hero spoke of the growing tendency toward "open diplomacy" among nations but saw no sign for great disarmament at present.

"I do not believe there is anyone in the world who does not want peace if they can get it," he said. "However, one has to be ready for war, as you do not keep burglars out by leaving the door unlocked."

## Major Godfrey Returns

Brings Motor Of Big Seaplane Which Was Wrecked In Crash

Edmonton.—Major A. E. Godfrey, noted Canadian aviator, whose recent crash in the northern wilds attracted Dominion-wide attention, arrived in Edmonton recently from Peace River accompanied by Sergeant-Major Graham, one of his three companions on the flight which ended in the Peace River.

Major Godfrey brought with him the motor of the big Fairchild seaplane which he and Sergeant Graham remained behind to salvage from the wreckage of the machine. The motor was forwarded to Ottawa.

### Has Narrow Escape

Kansas City, Kansas.—The life of Daniel Tovetich, 14-months-old baby, who was attempting to crawl across railroad tracks, was saved when an approaching train was halted just as the front end of the engine extended over the boy. Rising suddenly to see what the fuss was about, the baby suffered a slight bruise when he struck his head on the lower part of the engine.

## SASKATCHEWAN POOL ELEVATOR SYSTEM EXPANDS

Regina.—An extensive program of country elevator expansion was announced from the head office of the Saskatchewan Wheat Pool in a statement issued by R. J. Moffatt, managing director of the pool, in part as follows:

"I anticipated that with the completion of elevators now under construction by Saskatchewan Pool Elevators, Limited, the country grain handling facilities controlled by the Saskatchewan Wheat Pool for the 1928 crop will include more than 960 elevators, with an average capacity of between 30,000 and 35,000 bushels each. This number compares with 727 country elevators in operation for the 1927-28 crop year, an increase of 233 elevators for the current year."

"All told there have been 240 points in the province which have been approved by the board of directors as points at which Saskatchewan Pool Elevators, Limited, should acquire Pool grain handling facilities, either by construction, purchase or lease of a country elevator. Of this number Saskatchewan Pool Elevators has acquired 104 new country elevators by construction; 76 elevators have been secured either by lease or purchase; 19 elevators are at present under construction; and 41 new houses have yet to be built, of which 20 will be located at sidings on new railway lines. Three elevators have been rebuilt at Pool points where elevators were lost by fire, and three purchased elevators have been rebuilt."

"I do not believe there is anyone the construction department of Saskatchewan Pool Elevators, Limited, has, in addition to supervising the general elevator extension program, constructed 19 new elevators with its own crew."

## Believes River Under Control Of Dominion

Hon. N. W. Rowell Says Federal Rights Not Limited To Tidal Waters

Ottawa.—The Dominion parliament has authority to declare the existence of a public right of navigation over any river navigable in fact. Before the Supreme Court of Canada, Hon. N. W. Rowell, K.C., counsel for the Dominion, made this further contention on the question of federal and provincial control respecting navigation and water ways.

"The public right of navigation does not exist, as Ontario suggests, on the Great Lakes and the western portion of the St. Lawrence, Mr. Rowell proceeded, "then under the British North America Act and the powers of the Dominion in regard to navigation and shipping, the Dominion must have power to take action in the interests of having a national highway for trade and commerce in Canada. My contention is that the Dominion has absolute control over navigation and shipping."

## First Freight Has Reached Flin Flon

Five Tractors Have Been Delivered At Mile 83

Flin Flon, Man.—Following the driving of the last spike on the Flin Flon Railway, freight has started to arrive by train and the first load, consisting of five tractors with trucks on attachments, delivered a mile 83.

There are now 15 tractors hauling freight in and out of the big mine. The arrival of a further shipment of tractors is expected in the near future and by freeze-up roads to Island Falls should be in shape to stand the heavy traffic which will cross them during the coming winter.

### Mining Office At The Pass

The Pass, Man.—Establishment of a government mining office at The Pass has been effected by Hon. Chas. Stewart, minister of the interior. It will be under the direction of C. C. Ross, of Alberta, Fred W. Siebert and A. L. Cummins, engineers in the department, are in charge. The office is in the Bank of Toronto building.

## RUPTURE EXPERT HERE.

F. H. Sealey, of Chicago and Phila-  
delphia, nationally famous expert,  
will himself personally be at the Mac-  
donald Hotel, Edmonton, and will  
reside in Edmonton this Wednesday  
Thursday and Friday only, Oct. 17,  
18, 19, from 9 a.m. to 5 p.m. daily.  
Mr. Sealey says:

"The Spermatic Shield will not  
only avert any case of rupture per-  
fectly, but contracts the opening in 10  
days on the average case. Being a vast  
advancement over all former methods  
—simplifying instantaneous effects  
immediately appreciable and with-  
standing any strain or position no  
matter the size or location. Large  
difficult cases, or incisional ruptures  
(following operations) specially sol-  
icited. This instrument received the  
only award in England and in Spain,  
producing results without surgery,  
injections, medical treatments or pre-  
scriptions, with distinguished per-  
sonal patron of all nations." His  
methods have always been most sat-  
isfactory. —Late Dr. Edward Ship-  
pen, former Medical Director, U. S.  
Navy.

This instrument is the same as that  
applied to Surg. Genls. Bureau, U. S.  
Naval Hospital.—Penn R. R., Etc.,  
Etc.

He will be glad to demonstrate  
without charge or fit them if desired.  
Business demands prevent him stop-  
ping at any other place in this sec-  
tion.

N.B.—Every statement in this no-  
tice has been verified before the Fed-  
eral and State Courts.—F. H. SEALEY.

**CAUTION**—All cases should be  
cautioned against the use of any elas-  
tic or rubber bands, underpanters, as  
same rest where the lump is and not  
where the opening is, often resulting  
in strangulation.

FRIDAY, OCT. 26  
BARNES' ORCHESTRA.

## Here and There

(144)

An effort is being made to es-  
tablish an airport at Banff, Albu-  
erta. Government officials have in-  
spected it and the present and future  
and the prospect that a field will be  
prepared within the next year is  
bright.

A further supply of airplanes and  
airplane parts arrived in Montreal  
recently when the Canadian Pacific  
freighter "Beaverford" brought two  
De Havilland Ninth planes, one case  
of wings and two cases of spare  
parts.

A call for tenders for a large  
elevator with a capacity of 1,500,000  
bushels has been sent out by the  
Saint John Harbor Commission.  
The new structure is to be erected  
on the Colwell Pier company's site.  
In West Saint John, the work of  
construction to be got under way  
as soon as possible.

A Cadillac sedan equipped with  
rubber insulated steel flanged  
wheels has been specially equipped  
by the Angus Shops of the Canadian  
Pacific Railway at Montreal for the  
use of the engineering department  
of that company on inspection  
trips. The machine has an extra  
braking system operated by the  
steering wheel and can make as  
great a speed on the rails as it  
can on the highway. Over seventy  
miles an hour was made on a trial  
run.

A big black bear tried to stop a  
Canadian Pacific freight train the  
other day near Ardenale station in  
Northern Frontenac county in On-  
tario, and when the encounter was  
over there was not enough of the  
bear left to make a pair of mitts.  
Bruin evidently wandered on to the  
tracks during the night and was  
blinded by the glare of the head-  
light. Black bear are found  
throughout Eastern Canada but  
are not often seen, except during  
the winter season, as they are night  
producers.

Addressing the Board of Trade of  
Vancouver, recent E. W. Beatty,  
Chairman and President of the Cana-  
dian Pacific Railway, stated that  
present prosperity in Canada is  
clearly indicated by four main fac-  
tors: Record of railway car load-  
ings (showing the volume of busi-  
ness), employment returns, reports  
of financial houses, and building  
construction. These indices were  
of special value, he remarked, be-  
cause of the wide range of activity  
which they reflect. The gross earn-  
ings of the company, he added,  
had been greatly decreased, how-  
ever, by reduced freight rates.

A unique piece of railway equip-  
ment, a dynamometer car, has been  
constructed by the Angus shops for  
the Canadian Pacific Railway. The  
apparatus is intended to test the  
efficiency of locomotives at various  
speeds and is placed between the  
tender and the train during opera-  
tion. The forces exerted on the  
coupler of the car are transmitted  
hydraulically to an instrument  
known as a chronograph, which  
records upon a moving sheet of  
paper. It is stronger by far than  
any of its predecessors and is said  
to be the finest car of its kind on  
the continent. One of its first  
duties will be the testing of the  
new "100" passenger locomotive of  
the C. P. R., the largest engine in  
the British Empire.

### CHAPTER II—Continued.

Fresh from his exercises and shower, his cheeks red, his dark eyes shining with the clear glow of health, his step springy and free, Donald was a picture of rugged health and strength. But for all this apparent outward brightness, inwardly he felt rebellious. Douglas's invitation had brought a great longing for the comforts of his past life. Why should he assume the role of a pugilist to eke out an existence? Why wear shabby clothes and even know the pangs of hunger? He had but to wire his father that he was destitute and plenty of money would be forthcoming.

A big steak at "Old Joe's" furnished him a hearty meal. As he selected the money from his meagre supply of cash to pay his check, Old Joe beat his grizzled head forward. "Don't go hungry; come in any time."

"Thanks, Joe," Donald said in a dark mood. He heard the sound of happy laughter coming from a saloon on the corner. There behind those swinging doors was momentarily recess from worldly cares. He stood in the door of the restaurant and looked across the inlet at the twin peaks, known as the "Lions," which guard the entrance to Vancouver's harbor. The sun was setting in a mass of fleecy clouds; the clouds became a luminous gauze, and a golden splendor spread over the water. The mountains were suffused in violet, while the snow-fields took on a faint stain of rose. Donald's face glowed as he watched.

"Some country!" he breathed. He turned to catch a friendly smile from Old Joe as he worked over his range.

"And some people!" he added fervently.

Once more he turned to the mountains. The glow had vanished and the Lions stood in bold relief against the

## MEDICINE FOR YOUNG GIRLS

Mothers Endorse Lydia E. Pinkham's Vegetable Compound

Sydney, N.S.—"My seventeen year old daughter took Lydia E. Pinkham's Vegetable Compound for weakness and pains. She could not go to school much with the other girls as she was not strong enough. We got six bottles and it did her a great turn. She is working out now in a store and walks three miles every morning and back in the evening."—Mrs. MARY YANCE, 44 Lingard Road, Sydney, N.S.

Pinewood, Ont.—"I constantly had pains in my back and side and spent two days in bed every month. I have taken three boxes of Lydia E. Pinkham's Vegetable Compound Tablets. They have done me good and I always have them in the house. I have recommended your good medicine to several friends and have given it to my 17 year-old girl."—Mrs. ALFRED OLSEN, Pinewood, Ontario.

W. N. U. 1754

clear sky. The massive snow-capped peaks seemed to impart a new strength to his being. "I'll not quit. I'm going to make good," he said grimly.

### CHAPTER III.

While on his daily run around Stanley Park the next afternoon Donald was attracted by a horse and rider standing on Prospect Point. The rider was interested in a huge white liner plowing her way through the Narrows, bucking a head tide. The horse, a noble animal, with full mane and tail, was restive, rocking and prancing in his eagerness to be off.

When Donald lifted his eyes to the rider he saw a beautiful, haughty face with skin of a milky whiteness, a heavy mass of dark brown hair, neatly coiffed under a trim riding hat, and a pair of wonderful brown eyes that suddenly grew cold.

A shower of dirt and pebbles stung Donald's face as the horse was swung about as though on a pivot and with its rider was off like a wind.

"A thoroughbred," he exclaimed, as he watched the rider until she turned a corner in the drive. "Two of them! And she thinks I am a low-down masquerade," he added ruefully.

"That afternoon he went through fifteen rounds of boxing, finishing strong and fresh to tackle pulleys and punching-bag."

Andy was joyful. "I'll never go twenty rounds, me lad. That straight left of yours alone would stop 'im in 'arf that time."

"This is my last day of road-work," remarked Donald to his friend on Friday afternoon, as he slipped on his running shoes.

As he and Douglas neared Prospect Point Donald's thoughts turned to the girl of yesterday. "She was haughty as a princess." Unwittingly he had spoken his musings aloud.

"What's that?" queried his companion.

"I was talking to myself," laughed Donald.

"Bad sign! You are either in love or old-age has overtaken you. Too bad!" Douglas wagged his head sadly.

"I may as well tell you," confided Donald. "I saw a Greek goddess mounted on an Arabian charger yesterday."

Douglas threw out his hand tragically. "Donald, my poor friend! I am afraid that I hit you too hard in that last round," he said in a voice of mock compassion.

Donald stopped short. "Look!" he cried, pointing excitedly, "there she is!"

"I'll be jiggered!" exclaimed Douglas.

"Don't blame you, but isn't she a peach?" said Donald admiringly.

Douglas burst out laughing. "Do you know who that is?" he asked with a peculiar inflection.

"I told you — a Greek goddess, mount —"

"That's my sister, Janet," interrupted Douglas.

Donald's mouth opened. He stared at his friend. "Your what?" he exploded.

"Oh, I forgot! Poor fellow!" said Douglas, solicitously, as his face assumed a mournful expression. "I'll certainly have to pull my punches hereafter." He leaned toward Donald and placed his lips close to his ear.

"S-i-s-t-e-r," he spelled slowly. "Does the old bean grasp it?"

"Cut the comedy," growled Donald as he jerked Douglas to the side of the road out of sight of the equestrienne. "Good heavens! Your sister!"

he groaned, "and she thinks I am a masquerade."

"Why should she think that of you?"

Donald told him of yesterday's occurrence.

"This is great!" chuckled Douglas. "Come and meet my sister, Donald. I'll tell her that you can't help flirting, and that will fix things up all right. I'll call her." He grinned facetiously.

"Don't you dare! You —" Donald warned.

Douglas avoided Donald's wild clutch, ran to the centre of the road and waved his arm.

"Oh, Janet," he shouted.

Donald shook an angry fist at his tormentor and sprang to the shelter of the trees. There was a thud of hoofs, a spattering of gravel, and the sound of creaking leather.

"What in the world are you doing

here in that dress, Doug?" asked Janet.

"Janet," said her brother in a low, mysterious voice, "I've got the fellow that tried to flirt with you yesterday; he's in there." He pointed to the bush.

"The poor fellow is a confirmed flirt; has it in its worst form. I beg of you, Sister, be lenient, be merciful. He thinks you are a Greek goddess." He tapped his forehead significantly.

Donald cursed the irrepressible youth's sense of humor. If he could have reached the humorist at that moment he would have pitched him into the Inlet without compunction.

Janet eyed her brother with disapproval. "What are you talking about, Doug? Have you taken leave of your senses entirely?"

"I will bring forth the erring knight for you to censure," rejoined her brother, bowing low in exaggerated deference. "Ho!" he shouted, leave thy woody bow, Sir Don, the goddess awaits thee."

Seething inwardly, Donald tried to appear dignified as he stepped to the road, but the attempt was a dismal failure. He could only approach anything like dignity when dressed in a pair of running trunks, a torn and frayed jersey, socks turned down over a pair of dirty tennis shoes, and without hat or coat. All this added to the fact that he faced a battery of two big brown eyes, who thought him a masquerade. The greatest actor in the world, would fall to register dignity under such conditions. He had a confused remembrance of a jumble of words that went for a formal introduction. He felt his face hot, and knew he was blushing furiously, which did not add to his composure.

The girl looked down curiously, but not without interest, at the embarrassed young man.

Donald masterfully mastered courage to glance up at the face above him. The deep brown eyes regarding him held just a trace of humor. The full red lips were parted to show a flash of white, even teeth.

"It is a pleasure to meet you even under such inauspicious circumstances," stammered Donald. He turned to glance at the grinning cause of his discomfort. "I would suggest, Miss Rennie, that you have a doctor waiting at your home, as I intend to commit mayhem on the person of your brother as soon as you have gone."

(To Be Continued.)

## A PROBLEM FOR YOUNG MOTHERS

Stomach troubles cause most of the distress of babyhood and childhood, and are the greatest problem that a young mother has to solve. The treatment for these digestive disturbances that make baby cry continually and disturb his sleep must be quick and effective, and above all, perfectly safe.

The absolutely safe treatment for disturbances of the stomach and bowels is found in Baby's Own Tablets. Thousands of mothers have had their problem solved through them. They are guaranteed to be free from all injurious drugs, and cannot possibly do harm to even the youngest babe—they always do good.

Baby's Own Tablets regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fevers and promote that health-giving sleep which is so necessary to the welfare of the baby on growing child. The Tablets are sold by all leading dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Miss Olga Williams runs an aviation school on Long Island and already has 150 men in her classes. She teaches mechanics, engineering, airplane construction and navigation, as well as mere piloting.

### Little Helps For This Week

"Thou hast dealt well with Thy servant, O Lord, according unto Thy word."—Psalms cxix, 65.

Beneath the splendor of Thy choice, Thy perfect choice for me I rest; Outside it now I dare not live, Within it I must needs be blest.

— Jean Sophia Pigott.

I would rather be what God chose to make me than the most glorious creature that I could think of. For to have been thought about—born in God's thoughts,—and then made by God, is the dearest, grandest, most precious thing in all thinking.

— George MacDonald.

Sleep is the great nourisher of infants, and without peaceful sleep the child will not thrive. This cannot be got if the infant be troubled with worms. Miller's Worm Powders will destroy worms and drive them from the system, and afterwards the child's rest will be undisturbed. The powders cannot injure the most delicate baby, and there is nothing so effective for restoring the health of a worm-worm infant.

All druggists—25c and 75c red packages.

## EVEREADY Radio Batteries

—they last longer

Try It Yourself, Too!

You Can See Why a Layerbilt Lasts Longer

We would hardly advise you to tear up a new Eveready Layerbilt to find out why it lasts longer—but after you have finished one of these batteries, pull it apart! You'll see how solid with corrosion-resisting elements it was—and how evenly the wide plates of carbon and zinc were arrayed, giving the last bit of energy before your Layerbilt finally "gave out."

You'll marvel at the great improvement over the old types of batteries with their round cell construction—and we know that you'll be satisfied that the long life and economy of your Layerbilt was not just a lucky accident or a mystery, but a certainty of long service and economy based on scientific principles.

## Canadian Pacific Directors & Eastern Financiers Inspect the West.

From left to right, front row: F. W. Molson, director; Sir Charles Gordon, president Bank of Montreal; Sir Herbert Holt, director C.P.R. and president Royal Bank; E. W. Beatty, chairman and president of the Canadian Pacific; W. A. Black, president Ogilvie Milling Co. and director; Col. Henry Cockshutt, president Cockshutt Pulp Co. and director.

One of the most outstanding groups of eastern business men that ever visited western Canada together accompanied Mr. E. W. Beatty, chairman and president of the Canadian Pacific on his recent annual tour over the company's western lines. The party which was representative of the financial and industrial activities of all Canada left Montreal at the end of August and spent a full month travelling about the country between Montreal and the Pacific coast.

The purpose of the tour was to become more conversant with western conditions and problems—and more particularly to visit The Peace River country, most of the party never having been there before.

The party returned east with optimistic views regarding the entire country visited.

"I have never seen the country looking better at harvest time," said Mr. Beatty on his return, "and in all my experience I have not previously found so general a feeling of complete confidence in this country and its possibilities as was observed in the cities and districts where we made stops and had an opportunity of talking things over with their representative citizens. More than ever am I impressed with the potentialities of Canada's north land. I think it almost not too much to say that Canada's future lies to the north and that the opportunities already discernible there are a challenge to the incoming youth of the older parts of the country."

"We had an excellent opportunity of learning this," said Mr. Beatty, "during our visit to the Peace River country which most of us had not previously seen. As a result of that visit we have arranged to take over and operate the E.D. & B.C. Railway, which arrange-

ment, I believe, will prove very greatly to the advantage of that country and the people who live there."

"It is a beautiful as well as a fertile country," continued Mr. Beatty. "I can perhaps find the best of all to some parts of old Ontario. It is a rolling country, in some places quite heavily wooded and much broken by lakes and rivers. The soil is generally a rich, black loam and highly productive, and although there is a steady movement of settlers into the area which will no doubt increase in volume as it becomes better known, its extent is so great that it must be years before the available land is all taken up. Our party took every advantage of the opportunities offered to see the country. We motored over three hundred and fifty miles of its excellent roads, and almost everywhere we found fine farms or newly broken homesteads and in some cases well settled communities having every appearance of prosperity. In town and country alike we met with a cordial welcome and I think our visit was taken as a friendly gesture of interest on the part of the E.D. & B.C. towards the new, far North-west. We motored over the British Columbia border line as far as Reile and as far north as Peace River Landing, and still felt we did not touch the edge of Canada's great north."

"It is hardly possible to say what the next few years will bring to that country, but we must recognize the fact that there is a new Canada being opened up well beyond what we have previously considered to be the northerly limit of habitation and production. We hope that we shall very shortly be able to go to work on the task of putting the E.D. & B.C. Railway into better shape to serve the communities it reaches. Much money will have to be spent in order to bring it up to standard and it will also take some time."

### Inga Councilors Meet.

Inga Councilors held their regular session in Stony Plain on Friday last, with all the councilors present. No business of great importance was transacted, the passing of accounts and other routine business being the order of the day.

Councillor Goerz announces that work on straightening the Beach road opposite Mr H Kulak's residence will be proceeded with at an early date. This will be good news for motorists who use this road after dark.

### Notices!

Arrange to attend a chicken supper and concert at the United church next Monday, 5.30 to 7.30 p.m.

A box social and dance will be held at Rosenthal Schoolhouse next Friday evening, Oct. 12. Proceeds in aid of playground equipment.

Mr F W Lundy wishes to announce that a representative of Robertson, Winkler & Howe, the Edmonton legal firm, will be in Stony Plain every Saturday afternoon, and any other day for which a client wishes to make an appointment. Mr H D Laird will also be in Stony by appointment.

Don't fail to hear Prof. Ottewill on Oct. 14th at the local United Church. He will speak also at Spruce Grove at 11 and Brightbank at 3.

A benefit dance will be given in Holborn hall Friday, Oct. 26. This is in aid of a very worthy cause, and everyone should have a ticket.

### Stony Plain and District.

FIRE PREVENTION WEEK: October 7-13.

At Misericordia Hospital: Edmonton, on Monday, Oct. 1st, to the wife of Mr James Christie, a daughter.

Mr A E Michael left yesterday on a business trip to Innisfree.

Mr R Speakman, Edmonton, was a Sunday visitor in Stony.

To Wheat Pool members who patronised their own facilities for the 1927 crop a refund of excess charges will be made, and it will be appreciated if Pool members will call at the Pool elevator for their checks.

The Women's Institute met yesterday at the home of Mrs J H Lory.

Cattle Buyer Heal, from Edmonton, gave the local cattle ranches the once-over this week.

The Little quartet of boys, who motored from here early in the season, to tour the Saskatchewan harvest fields, returned Monday, after a very successful trip.

Mr Peter Oldenbach is back among old friends at Vernon B.C., and is contemplating a fruit farm there.

7% is a good return on your money; so is a subscription to your local paper.

### Henry's Birthday Party.

A very pleasant surprise party was held last week at the home of Mr Henry Kulak, Rosenthal district, when a large number of his neighbors and friends gathered to do him honor, on the occasion of the anniversary of his natal day.

By an odd coincidence, it happened to be the birthday anniversary of Henry's young son Arnold, and also of Mr August Meredith, both of whom were present at the festivities.

Music, dancing, cards and games was the order of the evening, with daintily assorted refreshments served during the intermissions. The dance orchestra was under the direction of Mr Philbrandt.

A big feature of the festive board was the huge three-tier birthday cake, ornamented with candles, one for each of Henry's birthday anniversaries.

Practically all Rosenthal district was in attendance, with guests from Stony Plain and Edmonton.

As the celebration drew to a close, all left for their homes wishing Herr Heinrich very many happy returns of the day.

### Spruce Grove News

A concert and apron social will be held in Wintburn Community hall Wednesday evening next, Oct. 17. All the good artists from Duffield will be present, assisted by local talent.

Late Saturday night a collision occurred between two motor cars a short distance east of Spruce Grove, on the Baseline. A car driven by an Edmonton doctor had a come-together party with a car driven by a prominent resident of Golden Spike. Each car suffered considerable damage, one of these being bucked into the ditch. There was no one in the Golden Spike car but the driver, and he was shaken up, but received no serious injury.

Mr Jac Brox is the proud owner of a new Plymouth sedan, purchased with the first returns of this year's wheat crop. Jac has willed his Tin Lizzie to the boys.

Mr MacKean made a shipment of choice beef to the City on Tuesday.

The speaker at next Sunday morning's service of the local United Church will be Prof. A E Ottewill, of the University of Alberta.

The Ladies' Aid of Spruce Grove United Church met on Thursday evening, Oct. 11th, at the home of Mrs Jas. Elder.

### Fire Near Spruce Grove.

Saturday afternoon, about 3, fire broke out in the hog house of Mr Albert Ries, one mile east of the Grove. The flames rapidly spread to the adjoining buildings and to 2 stacks of hay.

Phone calls for help were sent to the neighbors and to Spruce Grove. The neighbors turned out in full force and all the business men motored of the Grove motored down with fire-fighting apparatus.

The fire was in the centre of the layout of buildings, and fears were entertained for some time that the wind which was blowing strong at the time might veer and endanger the buildings on either side of the fire.

The flames were got under control about 5 p.m., and a squad was left to watch the smouldering embers.

The fire destroyed some 3 buildings, 14 tons of hay, 18 fat hogs and some smaller ones. Mr Ries himself had a narrow escape from suffocation while trying to chase the hogs from their den.

### Card of Thanks.

Mr Ries wishes to thank his friends for their ready response and efficient service given, on the occasion of the fire on his premises the afternoon of Saturday, Oct 8th.

### Apples, all kinds.

Crabapples,  
Pears, Plums,  
Green Tomatoes,  
Cantaloupes,  
Citrons, etc.
